Come over come and pull me on
I'll come and I can't command you
And let you digging to yourself
I'll never, never forget you
Come out from hiding
Come back to haunt me
I'll let you put me down
I'm always picking you apart
I'm leaving scratches form my heart
I look for someone else to blame
I'm always chunking up names
Forever waiting
I'm suffocating
You're flinking
drag me down

You stuck by slither in me
And I'm out here melody
I fall down deliver and bleed
and just you're
missing your attempt on
I caught up and you begin to bleed
Oh yeah you're own destiny
I want you embitter me sweet oh
you have to treasure my pain

I tried to get me
inside your head
whatever gets me
I'm always
feeling disconnect
I'm over running away
I know I don't
deserve a thing
I ask you to come
to diffuse me

And soon and later
You're taking too far
You slip and drag me down
and sound familiar

You stuck by slither in me
And I'm out here melody
I fall down deliver and bleed
and just you're
missing your attempt on
I caught up and you begin to bleed
Oh yeah you're failing for just nothing
I want you embitter me sweet oh
you have to treasure my pain
I want you embitter me sweet oh
you have to treasure my pain
I want you embitter me sweet oh
you have to treasure my pain
