

Gob "Fed Up"

Visit "[Fed Up](#)" on MotoLyrics.com

With tunnel vision on
You are the only one
All made up, stare straight up
And walk straight into a wall
See this is all your fault
You take more than you can hold
You want this one, you won't give up
You'll suck it through a straw

Till you're full, till you're full
It's true that you would be fed up with you
If you knew what you are
Till you're full of yourself
It's true that you would be fed up with you
If you knew what you are

It's different than before
You don't listen anymore
You're impatient, you're inflated
And I know that you won't stop

Till you're full, till you're full
It's true that you would be fed up with you
If you knew what you are
Till you're full of yourself
Till you're full of yourself
Till you're full of yourself
It's true that you would be fed up with you
If you knew what you are
