i don't even want to know
and i don't even really care
what exactly's going on
with you and your friends
all the time it's all the same
i don't even see a change
what exactly's going on
with you and your friends?
what are you going to do
when it all comes back to you?
what will your friends say?
i don't even care!
it doesn't matter if anyone really knows
just decide what it is you want,
the choice is yours
finally you can realize
everyone else doesn't have
a stubborn mind
that you might have
maybe if you listened to someone else
but your friends
cause all the time it's all the same
and i don't even see a change
what exactly's going on with you?
what are you going to do
when it all comes crashing back to you?
what will your friends say?
i don't even care!
it doesn't matter if
anyone really knows
just decide what it is you want
the choice is yours
finally you can realize
he's gay! he's gay! he's gay!
don't you see we need to change?
society's way of thinking
all depends on ideas from you too
