"Losing Face"

Visit "[Losing Face](#)" on MotoLyrics.com

"We come from a place where the people are much more unfair.
We come from a land where the laws are much more unfair."
That's what they said on tv, that's why they have no faces .
We could get away with murder, that's what they think.
Murder, that's what they think.
"We come from a place where the people are much more unfair .
We come from a land where the laws are much more unfair".
That's why they wait outside our houses, to murder us.
Take them home, make them go.
Take them home, make them go.
