Innocence!
Can't cut it
Even if you get the part
Of a stupid coward, imbecile
You hypocrite
Just face it
You're a lame excuse
You should realize you
Grow these kids to believe your lies
Just the sort of tactics
And the ignorance
Lose the paranoia and your attitude
Don't fill me with your crap
And your insecurity
Why can't you comprehend?
It will get you in the end
Discriminate!
Just proved it
Colour is so far apart
It's an issue lacking dignity
A chauvinist!
You're a joke and a lame excuse
Do you realize you grow
Those kids to believe your lies?
Just the sort of tactics
And the ignorance
Lose the paranoia and your attitude!
What are you hiding from?
Prolonging your anxiety
Don't fill me with your crap
And your insecurity
It's just wrong and you're not right
Your hate can't be justified
Why can't you comprehend?
It will get you in the end
