This evil world
Is punishing you from the things that you say
You carry your weight
But I
I don't know it's about you
All the time
It's easy to fall
Well you're going up and they're pulling you down
They would get you down
But you're
You're constantly fighting, anyhow
You're sold so quickly
You drop to your knees to be part of the scene
You know what I mean and I'm
I'm trying to keep you grounded

Where are you?
Where are you now?
You're slowly slipping away
Where are you?
What have you done?
You're slowly slipping away
Where are you?
Where are you now?

One day you'll be found
Crawling around with a knife in your back
Someone keeps track and you
You were only human
But now you're square
You're life's so empty
You throw a fit if you don't get you're way

You're going insane and I'm
I'm right here to watch it go down

Where are you?
Where are you now?
You're slowly slipping away
Where are you?
What have you done?
You're slowly slipping away

Where are you?
Where are you now?
You're slowly slipping away
Where are you?
What have you done?
You're slowly slipping away
Away

Don't act so surprised
You pay for your sins and you tested your fate
Now it's too late
Objection overruled

Where are you?
Where are you now?
You're slowly slipping away
Where are you?
What have you done?
You're slowly slipping away
Where are you?
Where are you now?
You're slowly slipping away
Where are you?
What have you done?
You're slowly slipping away
