Eyes watch you from a step away
A wide grin as I manipulate

In the dark of awareness
The arena of the blind
The hell you see is nearer you think

I feed you new filth today
Open wide as I manipulate

In the dark of awareness
The arena of the blind
The hell you see is nearer than you think

As I wreck the dreams and hopes of countless eyes
And feed my filth to millions
Focused on the addiction of wide screen lies
Fixed on the messages unseen

Unseen, evolved, machine, subliminal
Unseen, evolved, machine, subliminal

Now I've caught your attention
Fix your gaze on the information maze
Filter out my hidden agenda

As I wreck the dreams and hopes of countless eyes
And feed my filth to millions
Focused on the addiction of wide screen lies
Fixed on the messages unseen

As I wreck the dreams and hopes of countless eyes
And feed my filth to millions
The world consumes in synchrony
Willing virus for my chaos remedy
