Beast in the east  
Cross the frontiers  
As a cure for the pain  
They reclaim their lands

Harsh winter conditions  
Poorly equipped men  
Rebel militia fighting  
For both sides

Massacres conducted on local population  
Occupational forces committing ethnic cleansing

Masses of men collide  
In a fight over dead land  
The puppets on the front line  
Their ignorance is used for a lost cause

Through Byzantine hemispheres

Masses of men collide  
In a fight over dead land  
The puppets on the front line  
Their ignorance is used for a lost cause

Through Byzantine hemispheres

Beast in the east  
Cross the frontiers  
As a cure for the pain  
They reclaim their lands

Massacres conducted on local population  
Occupational forces committing ethnic cleansing
