What exists around us?
The right to choose free spirit
Master of fate, embrace
Free spirit
Master of time to judge them, aversion to believe the
lies
What are we waiting for?
Preserving the right to decide.

Unaware of
What exists around us
The right to choose free spirit
Master of fate, embrace
Free spirit
Master of time to judge them, aversion to believe the
lies
What are we waiting for?
Preserving the right to decide

Chasing the dreams
The shadows behind me
Everything's clear
Everything's clear

Time to judge them, aversion to believe the lies
What are we waiting for?
Preserving the right to decide
Force-fed.

Force-fed.
Awaken. Force-fed.
Realise. Awaken.

Force-fed.
Awaken. Force-fed.
Realise. Awaken.
Force-fed.
