"Go Your Own Way"

Forget you all and your rules
They are pointless
I go my own way
Will take what I need and what I want
They tried to sway me (Sway me)
My thought and my actions
I'm not trying to hear it (I can't hear you)
I do what I want

(My path chosen)
My path chosen is narrow, it leads me there
It has been written, if I fall let me be
Let me be

(My path chosen)
My path chosen is narrow, it leads me there
It has been written, if I fall let me be

It works for me
I go my own way
To err is human
To err is human

Scream as I inflict vengeance (Forget you all and your
rules
They are pointless
I go my own way
Will take what I need and what I want
They tried to sway me (Sway me)
My thought and my actions
I'm not trying to hear it (I can't hear you)
I do what I want

(My path chosen)
My path chosen is narrow, it leads me there
It has been written, if I fall let me be
Let me be

(My path chosen)
My path chosen is narrow, it leads me there
It has been written, if I fall let me be

It works for me
I go my own way
To err is human
To err is human

Scream as I inflict vengeance (Scream as)
Love and hatred go hand and hand
Emerging love and hatred

(My path chosen)
My path chosen is narrow, it leads me there
It has been written, if I fall let me be

It works for me
My path chosen is narrow (Path is narrow)
It leads me there

Scream as I inflict vengeance (Vengeance)
Love and hatred go hand in hand
Emerging love and hatred

(My path chosen)
My path chosen is narrow, it leads me there
It has been written, if I fall let me be
It works for me

My path chosen is narrow (Path narrow)
It leads me there
