We build this monument, there's only one more chance
I am the architect. We build these dreams
Something from nothing, again and again
This is unstoppable, this is unstoppable

Its how it always ends... I want to start again
Breaking down, but not within. Sometimes,
I'm overwhelmed by all I see
Broken Down, but never again.
My eyes are wide but forever, isn't faraway

I am the architect. We build these dreams
Something from nothing, again and again. This is
unstoppable
Thank you for this day, one more chance to create

Its how it always ends... I want to start again
Breaking down, but not within.
Sometimes, I'm overwhelmed by all I see
Broken down, but never again
My eyes are wide but forever, isn't faraway

This is who I am. This is who I am
Destiny. I bend you to my will
Can't you see, its all part of me
This is who I am. I want to start again.

This is who I am... It's how it always ends
Destiny. I bend you to my will
Can't you see, it's all part of me
This is who I am... I want to start again
