"Scared"

I'm scared of you
There's nothing I can do
No sense in wasting time
I want you out of my mind

You make me feel unhappy
I wish you weren't real
You only make me unhappy
And I can't deal
With it

I never wanted you
But I'm afraid it's true
You're gonna catch me by surprise
I hope there's time to realize

You make me feel unhappy
I wish you weren't real
You only make me unhappy
And I can't deal
With it

You make me feel unhappy
I wish you weren't real
You only make me unhappy
And I can't deal
With it
