(2:54)

I know what it takes to normalize  
To slow me down and cut me down to size  
I wanna get that feeling  
To touch the ceiling  
So send me reeling  
I wanna know  
How can i ease my mind  
Ease my mind  
Yeah i'm being taken away  
I'm feeling that i'm finding my way  
To something that's completely overwhelming me  
I get tired of most everything  
I anxiously await the gifts you bring  
I spend my time thinking  
And i hate thinking  
To stop this thinking i want to know  
How can i pass the time, pass the time
