How much longer will I be waiting for you
I've been thinking of what I'm gonna do
I knew when I saw you the look in your face
I hardly had to ask you over to my place
I've been waiting anticipating you

You know it's just a waste of time
Hoping I would change my mind
What's this coming over me
I don't feel free anymore

I can please you but I don't choose to now
I've got needs too, please fulfill them somehow
I know I seem demanding but it's all worthwhile

I need your understanding of how to make me smile
I can see you working out just fine

You know it's just a waste of time
Hoping I would change my mind
What's this coming over me
I don't feel free anymore

You know it's just a waste of time
Hoping I would change my mind
What's this coming over me
I don't feel free anymore
What do you think you mean to me
How important you must seem
What's this coming over me
I don't feel free anymore
