There's a place I go to make fires  
Burning spices on the 805  
They found a boy dead by the roadside  
Hanging naked but satisfied  
There's a place I go, where no one knows  
And it's not far away  
And if you should see me with  
my face up against the wall  
Well don't, don't stop to talk  
Don't stop to talk  
Don't stop to talk  
But who knows that goes on up here  
But who knows what goes on up here...  
There's a place I go, where no one knows  
And it's not far away  
And if you should see me with  
my face up against the wall  
Well don't, don't stop to talk  
Don't stop to talk  
Don't stop to talk  
All I am is all I am  
Well all I am is all I am
