my face must be green green
cuz people rob and kill for me
people work their lives away to get a bigger piece of
me
put me in a bake or in a safe in your place
trying to hord me cherish me never ever share me
my lifeline
motivation cause to prime
met a gangsta likes to rhyme
live so many lifetimes
must make ya greedy
make yourself needy
like the best sex you ever had

you really wanna screw me
im your first orgasm
first to make your legs spasm
leave your body shakin
its me that your cravin
like godiva chocolate
you just cant stop eating it
even though you want to
im not good for you
heart attack weight gain
stress on your brain brain
instant satisfaction
major distraction
but theres something bout me
call me unhealthy
i got the stuff thats missing
good luck quitting

G-o-d to the d-e-s and s-h-e
