Hmmmm. Hmmmm.

Better. Better.

I can love you better. Better.

I can love you better.

Something's going on. Yeh.

I keep thinking 'bout ya.

Every time I hear a love song.

You're on my mind all the time

But I can't express to you

'Cause you're already taken.

But your girl's a fool.

I wish we would've met

When you were single.

I would've swept you righta' off your feet

And made your body tingle.

Correct me if I'm wrong

But I feel your energy.

If there's something in the air

We got a sexual chemistry

That's so deep.

We can't deny it.

When I start to feel it
I can't do nothing about it.
So I wait, laying back
Chillin' in the cut
Hoping some day
It'll just be us.
Till then I can just live
Through my daydreams.
Kinda like a drug
'Cause I'm feeling like a fiend
Or like a teen having fantasies
destracting me*
Sexual by nature
Make it hard to breath. Uh huh.
~
Some day you will be mine.
Hope I'm not out of line.
I want you to be mine.
Noone can love you better.
And when it's you and me.*
Oh baby, wait and see
I'll give you everything
Oh I can love you better
~
It's just the way that ya walkin'.
The way that cha talkin'.

That way that ya move
It's so graceful and smooth.
And every time you're in my presence
I have to slap myself.
My heart skipped a beat.
You make me wanna melt.
I even get nervous
And I'm not the nervous type.
But it's really rare
That I find someone I like.
I get a funny feeling down below.
I hope you don't know this
I hope it doesn't show.
I picture you undressed.
And it turns me on. Yeh.
I'll keep on goin strong, I promise*
All night long.
How ever you want it.
I'll tie anything.
I'll whisper in your ear
And I'll even try to sing.
Haha. You'll probably wouldn't
Want me to do that
But I'll kiss you on your feet
Work my way up your back.

Have a lil' Shadae

Playin' in the background

We'll start on the bed

Work our way to the ground. Oh.

~

Some day you will be mine.

Hope I'm not out of line.

I want you to be mine.

Noone can love you better.

And when it's you and me.

Oh baby, wait and see

I'll give you everything

Oh I can love you better

Baby, Baby, Baby.

I can. I can love you better.

Baby, Baby, Baby

I can love you . . . I can love you better.

~

Leave ya girl at home

And come out with me.

It's time for me to fathom

That you don't see

Me and you together*

We got that vibe.

Plus I'm a 10

And your girl's a 5.

She don't treat you like the way
That you wanna be treated.
I wouldn't be surprised
If she crept and cheated.
I don't mean to be conceited
But I know I'll treat ya better.
All those times she threatened to leave
I wish you let her.
We could make a cute couple.
I'll take you around the world.
Yeh. Honest to fifth.
I'll stay true as your girl.
Whatever you want
I'll try to make it happen.
I'll be rich some day
From the way I be rapping.
I can see us in the future
Having some kids.
We can leave for the summer
And go to Madrid.
Okay. I guess I'm kinda' gettin' carried away.
'Cause we never even went out
On a first date.
Oh well.
~

Some day you will be mine.

Hope I'm not out of line.

I want you to be mine.

I want to love you better.

And when it's you and me.

Oh baby, wait and see

I'll give you everything

Oh I can love you better

Better. Better.

I can love you better.
