This is the soul of the 21st century

I lie to you and you lie to me

And this is the soul of the 21st century

Where every dream ever dreamt

Will come true a thousand times

Man makes the machines

And the machines make the man

And the stars and the planets and everything

Every little thing

But without a song the day would never end

Without a song a man ain't got no friend

Without a song the road would never bend

Without a song without a song

Hail the king for he is victorious

Salute the whores who fight for all of us

So that every dream that has ever been dreamt

Will come true a thousand times

Will come true a thousand times

This is the soul of the 21st century
