As the sun comes up so the sun goes down

And your blue days will come around

I can understand but I can't help

The love you need comes from yourself

I thought about you yesterday

There's nothing more that I can say

Believe in yourself

Believe in yourself

Believe in yourself

Believe in yourself

You'll be no good to no-one else

Until you learn to love yourself

These so called friends that you can't trust

They'll let you down, they'll cause a fuss

I thought about you yesterday

There's nothing more that I can say

Believe in yourself

Believe in yourself

Believe in yourself

Believe in yourself

As the sun comes up so the sun goes down

And your blue days will come around
I can understand but I can't help
The love you need comes from yourself
I thought about you yesterday
There's nothing more that I can say
Believe in yourself
Believe in yourself
Believe in yourself
Believe in yourself
Believe in yourself
Believe in yourself
Believe in yourself
