Give me freedom, give me love
Give me all the things I'm dreaming of
Give me reasons to believe
Give me strength so I can live again

Don't let me down
I've got a feeling, it's you I believe in
Don't let me down
I've got a feeling, it's you I believe in

Stars in the heavens will collide
It's the turning of the tide
As our ship comes sailing in
Now's the time to sink or swim

Don't let me down
I've got a feeling, it's you I believe in
Don't let me down
I've got a feeling, it's you I believe in

I've seen the changes all around
I saw the wall come tumbling down
There is freedom, there is love
There are all those things I'm dreaming of

Don't let me down
I've got a feeling, it's you I believe in
Don't let me down
I've got a feeling, it's you I believe in
Don't let me down
I've got a feeling, it's you I believe in
Don't let me down
I've got a feeling, it's you I believe in
