She's just got out of bed  
She hasn't had her breakfast yet  
She phoned in sick today  
She needs a mental holiday  
She's being pushed around  
Her world is upside down  
Know she's going down  
Waiting for a chance to succeed  
She said love's dead  
She said love's dead  
She found out where she went wrong  
And now she knows she's hanging on  
She may waste her time today  
But they can't take her dreams away  
She's being pushed around  
Her world is upside down

Know she's going down  
Waiting for a chance to succeed  
She said love's dead  
She said love's dead  
She said love's dead  
She said love's dead  
She said love's dead  
She said love's dead
