### "She Said C Burrows P Coyne A Byworth"

Visit "[She Said C Burrows P Coyne A Byworth](#)" on MotoLyrics.com

It's good to be here tell me what you see

Right place right time she's just a problem with me

There's complications more than what you'll see

Another time another girl it makes no difference to me

She said something about you

She said something to me

She said something about you

And it was wrong wrong wrong wrong

Time waits for no-one that's what she said

Another kiss is all you need but I try hard to forget

She makes positive motions indicating to me

Right place wrong time she's just a problem with me

She said something about you

She said something to me

She said something about you

And it was wrong wrong wrong wrong

She said something about you

She said something to me

She said something about you

And it was wrong wrong wrong wrong

It's good to be here tell me what you see

Right place right time it makes no difference to me  
She said something about you  
She said something to me  
She said something about you  
And it was wrong wrong wrong wrong  
She said something about you  
She said something to me  
She said something about you  
And it was wrong wrong wrong wrong  
She said something about you  
She said something to me  
She said something about you  
And it was wrong wrong wrong wrong  
She said something about you  
She said something to me  
She said something about you  
And it was wrong wrong wrong wrong
