Yeah it was strange about today

Sitting here waiting for somebody

It was strange about today

Sitting here waiting for somebody to call

It was a shame about today

Yesterday's gone and we're waiting for tomorrow

And the rain came down today

It felt so good to know that it was falling down

So call on me so call on me

Day after day I wait for you to call on me

Day after day I wait for you to show your face

And it's so strange about today

Sitting here waiting for an answer

It was strange about today

Sitting here waiting for somebody to call me

So call on me so call on me

Day after day I wait for you to call on me

Day after day I wait for you to show your face again

Day after day I wait for you to call on me

Day after day I wait for you to show your face

And it's so strange about today

Yesterday's gone and we're waiting for tomorrow

And the rain came down today

It felt so good to know that it was falling down

So call on me so call on me

Yeah it was strange about today

Strange about today

It was strange about today

Yeah it was strange about today

There's something strange about today

Strange about today

There's something strange about today

Yeah it was strange about today

Yeah
