Time is here and time is now

Time is what you make it girl

Everybody needs some time

'Cause time is right for everyone

The time for us is here and now

The time is here and the time is now

You know the time is here and now

And I've got time

You've got time

We've got time

We've all got time

Time is old and time is young

Time will end what it begun

There can be no end to time

'Cause time is yours and time is mine

The time for us is here and now

The time is here and the time is now

You know the time is here and now

And I've got time

You've got time

We've got time

We've all got time

Time is here and time is now

Time is when you've made it girl

Everybody spend some time

'Cause time is yours and time is mine

The time for us is here and now

The time is here and the time is now

You know the time is here and now

And I've got time

You've got time

We've got time

We've all got time
