Force of ancient daemon seed
Brings forth the lords of darkness
Despise the light and kill the chosen one
Enter the kingdom beyond this false saviour

Incinerate the image of god
So it should be, so it is done
Satan guides to the gates of pain
Give praise to the seven daemons of death

Nazarene killed by god
The christian has been revealed
It was foretold that jesus would die
No other reason,
Inflicting his grave to
Prevent revelation
Expel their religion which
Leads unto misery
Satan has won and I am of him

Despise for god, blasphemy to the disciples of lies
End of their saviour, infecting the tomb of deception
Despise for god, blasphemy to the disciples of lies
Crush their faceless lord, end of their son jesus christ

Confront the lords
Bastard son on the forgotten throne
Unheavenly dead
Enter the kingdom beyond this false saviour
