Desecration of your god with vengeance in my mind  
I blame this fucked up world completely on your lord  
He rips out my heart and trample upon it as he always  
have done

A Nazarene son called as the redeemer but I am the  
newborn messiah

Obscenities has crossed my path, gods hate has  
suffered me  
Persecuted by his prophets as the Jews in world war two  
Tell me to pray and indulge into suffering but I see no  
reason in that  
His suffering is holy they told me from birth that I  
should be grateful to this agony

Given a free will repent or to die  
Returning hate, it's an eye for an eye  
Indulged for the father, a heaven, a lie  
Payback's a pleasure, give up and goodbye

God's love is dead his hate forever last  
Now force me down to crawl into your dirt  
I am condemned in the name of his golden rule  
From the birth to the cradle from the cradle to the  
grave

Message from your book with a knife to my throat  
Live as you want, and you'll face death if you live it  
your way  
Drink the Blood of Christ or drink the blood of Lucifer  
Repent your sins or go with bad luck and then burn in  
hell... in hell

Payback's a pleasure, goodbye!
