As time is passing away every breath is full of sadness
Not knowing of this fate, know not what is to come.
A constant dream of a desolate place consumes the
soul even more
This silent world around, remember when it came

Fall into despair
Nowhere to hide
Oblivion

Tragedies come when we least expect like a merciless
revenge from god
An unrest inside!
As the past is fading and a future is dead, everything
dies
Like plagues unheard of transfixed by alteration

Fall into despair
Nowhere to hide
Oblivion

Striking from a hidden place unmerciful plague
An angst inside cast upon, nowhere to hide and no
escape
Falter in the valley where time and space is lost where
all life disappear
A shadow of it's former self struck by a bitter end

Fall into despair
Nowhere to hide
Oblivion

As time is passing away every breath is full of sadness
Not knowing of this fate, know not what is to come.
A constant dream of a desolate place consumes the
soul even more
This silent world around, remember when it came

Fall into despair
Nowhere to hide
Oblivion
