Come in, come in, Air Force One

Come in, come in, One

Come in, come in, Air Force One

Come in, come in, One

Come in, come in

There's a bomb on board

There's a bomb on board

All you people

On that plane

Take your last sip

Of champagne

Then blow away

All you people

On that plane

Where you gonna land

You can't land on Venus

You can't land on Mars

You can't in Texas

There's no breathable air

All the breathable air

Has gone away

G one away
All you people
On that plane
Where you gonna land
Flying through the night
To save the world
The wings of power thunder
Lonely are the brave
On Air Force One
And later after dinner
They will close their eyes
And watch the stars go out
From Air Force One
