### "Silent Running"

Visit "[Silent Running](#)" on MotoLyrics.com

Learning to harmonize, realize, fraternize, fantasize.  
I've got a feeling  
That's it's over.  
It's been a long, long, long time coming.  
I'd like to see this thing take over.  
Silent running. Silent running.  
You've got your wires crossed and one of these days  
you'll find. You drew  
The short straw (short straw, short straw, short straw)  
You gotta cut out the habit. Of (oooh) picking up strays.  
And try learning to harmonize, learning to harmonize,  
learning to harmonize  
And when the join breaks, the head wakes up and  
makes the heart break down.

And when the join breaks, the head wakes up and  
makes the heart break down.  
You know it's time you saw it was over. Tell me what  
else can you  
Disapprove  
I feel a harmony comin' on so move over. And let's  
keep on running improve  
(Agonize )  
Learning to harmonize. Remember the good takes the  
bad takes hands off the  
Handbrakes  
The whole change the spell breaks. If you're doing all  
of this, you're  
Learning to harmonize  
Learning to harmonize (learning to harmonize...)
