"Mama"

Visit "[Mama](#)" on MotoLyrics.com

Oh mama what have I gone and done?
With all these years that I've been gone
My life changed me way too fast
I don't know if I could last

Help me find my way, and mama save me
Help me find today, mama please come and save me,
oh

Oh mama if you could've only seen
Everything I've done and where I've been
If only one thing I would ask
Why did you let me grow up so goddamn fast?

Help me find my way, and mama save me
Help me find today, mama please come and save me,
oh

There's nothing more that you can do
It's gone beyond what you can't help me through
An emptiness has covered me
Oh mama come and save me

Help me find my way, and mama save me
Help me find today, mama please come and save me,
oh
Help me find my way, and mama save me
Help me find today, mama please come and save me,
oh

There's nothing more that you can do
It's gone beyond what you can't help me through
An emptiness has covered me
Oh mama come and save me
Oh mama come and save
Oh save me... no!
Oh please mama save...
