Angel angel sorrows angel  
Lift your head by the edge of the sea  
The bliss of firefly swirling confusing  
Distracts your mind will you reach out to me?  
Dare you walk in celebration  
Focus Orion the blink of an eye  
Secretly charming the opus dictator  
Erased like a cloud in the October sky  
Walking talking chasing moments  
Closing a gate in a passage of time  
Ephemeral madness impression distortion  
Return of your triumph in a nursery rhyme
