If this thing should come around, I'm gonna take it
down
No more treading through my space, I need to
separate

It's inside, its looking to break free, and constantly
taking everything
As I bring it all way
Now bring it on to me
Bring it on!

Face down, broken all around, but I'm gonna send it
here
Don't you make yourself out to be,
Just need go to after me

It's inside, its looking to break free, and constantly
taking everything
As I bring it all way
Now bring it on to me

No!
Bring it on Son
All the way, All the way

Bring it!
All the way. All the way, All the way
Bring it!
All the way. All the way, All the way
Bring it!
All the way. All the way, All the way
Bring it!
All the way

It's inside, its looking to break free, and constantly
taking everything
As I bring it all way, All Day
Now bring it on to me
Bring it on! Yeah!
