Two faced! I feel you crawling under my skin  
Sickened by your face  
By the way, to think that your so fuckin' kind?  
You ain't

Hard to find how I feel  
Especially when your smothering me  
Hard to find how I feel  
Oh please someone help me

I knew when an angel whispered into my ear  
You gotta get him away  
Hey little bitch, be glad you finally walked away or  
You may have not lived another day

Hard to find how I feel  
Especially when your smothering me  
Hard to find how I feel  
Oh please someone help me

Hard to find how I feel  
Controlling me every step of the way  
Hard to find how I feel  
You greedy little baby

Hard to find the time to find  
Hard to find the time to find  
Uh,uh,ha  
Yeah,yeah,yea

Hard to find how I feel  
Especially when your smothering me  
Hard to find how I feel  
Oh please someone help me

Hard to find how I feel  
Controlling me every step of the way  
Hard to find how I feel  
You greedy little baby
