{Moonlight is about to transform some people into  
strange creatures  
To drive others mad  
[Foreign content]  
Does the moon actually possess such strange powers?  
Or is it all just lunacy?}

Let's take a blast to the moon baby  
I sit around wishing you will  
How I'm craving you  
Yeah

Every time I'm near you  
I always wanna swallow you down  
I'll be right here if you need me

In my life, I'll need you here  
Don't ask why and I'll never disappear  
Why is it everyday that I feel the pain?  
Ah yeah

Let's take a trip to the stars far away  
Where were you when I was down?  
Staring into the dead  
Dead

My pain is caused by my pleasure  
And my soul mate lives in your body  
I can't get you out of my head  
It never goes away

In my life, I'll need you here  
Don't ask why and I'll never disappear  
In your eyes you can bid me farewell  
Don't ever try to understand the situation  
Why is it everyday that I feel the pain?

It always comes when I least expect it  
When I'm looking for love  
I seem to be regretting it

Why is it everyday that I feel the pain?

Ah yeah, yeah

I had nothing to do with this  
Tolerance, tolerance for pain  
And we can't have weakness

No, I can't stop  
I had nothing to do with this  
I had nothing to do with this

[Incomprehensible]

I had nothing to do with this  
I had nothing to do with this

And we can't have weakness  
And we can't have weakness

Tolerance, tolerance for pain  
Tolerance, tolerance for pain  
Tolerance for pain  
Tolerance for pain
