Decisions made from desperation
No way to go
Internal instincts craving isolation
For me to grow

My fears come alive
In this place where I once died
Demons dreaming
Knowing I...I just needed to realign

Fell in a river of illusion
And apathy
Drowning in a self-induced confusion
I'd rather be
Yeah!

My fears come alive
In this place where I once died
Demons dreaming
Knowing I...I just needed to realign

My fears come alive
In this place where I once died
Demons dreaming
Knowing I...I just needed to realign

Yeah!

Yeah! [4x]

My fears come alive
In this place where I once died
Demons dreaming
Knowing I...I just needed to realign

My fears come alive
In this place where I once died
Demons dreaming
Knowing I...I just needed to realign
Yeah!
