Decisions made from desperation  
No way to go  
Internal instincts craving isolation  
For me to grow

My fears come alive  
In this place where I once died  
Demons dreaming  
Knowing I...I just needed to realign

Fell in a river of illusion  
And apathy  
Drowning in a self-induced confusion  
I'd rather be

My fears come alive  
In this place where I once died  
Demons dreaming

Knowing I...I just needed to realign

My fears come alive  
In this place where I once died  
Demons dreaming  
Knowing I...I just needed to realign

My fears come alive  
In this place where I once died  
Demons dreaming  
Knowing I...I just needed to realign

My fears come alive  
In this place where I once died  
Demons dreaming  
Knowing I...I just needed to realign  
Yeah!
