To protect this generation  
from the raging east infection  
market another british invasion  
or 80-th regurgitation  
or more cultural inbreeding  
oor more garbage prefeeding  
to protect this generation  
from the east infection!  
aiiiiiiiiiiiiiiiiiiiiiiget down here as a cheap labor force  
but i beat the system everywhere i goes  
no matter how many times i get ordained  
the message is still the same:
