Sleep all the trays
Kitchen supplies that are nice
Sleep all X-rays...

Under your pillow there sleeps little mice
And revolutionaries, they sleep with no compromise
Don't sleep right now
Only future kings
They want romance
They started their marketing - mama!

Sleep all the trays
Sleep...
Don't sleep right now, only future kings
They want romance
They started their marketing
They started a web and graphic design
Resource catalogues of porcelain

Don't sleep right now, only future kings
They want romance
They started marketing
They started web and graphic design
Resource catalogues of porcelain
