Sally was a fifteen year old girl from Nebraska
Gypsies were passing through her little town
They dropped something on the road , she picked it
up...

And cultural revolution right away begun!
Oh no, cultural revolution just begun
Oh no, cultural revolution just begun
They always were afraid that I was schizophrenic...
They always were afraid schto ja rodinu prodam
a po pravde ja bil prosto malenkij medvedik
sel na velosipedik i vsjo nahuj proebal...
Oh no, cultural revolution just begun
Oh no, cultural revolution just begun
From all the tables of contents that Mother Earth
provides
I'd like to be a big fat fucking fly

The one that spins around your head all day and all
night
and sound of it is just like a what?..
...but by the accident of some kind divine dispensation
I ended up being walking United Nation
And I survive even fucking radiation
A big fat fucking what?
And I would visit you a lot
