

Going Nowhere Fast "Paranoia"

Paranoia,
I can't ignore ya,
Big brother staring down at me.
Cause every step,
Is leading to our last,
Never thought we could die so fast.

Breeding a mass of puppets,
Without a conscience,
A mindless race, that's taught to fear
What they question, to keep in place,
A common fashion, a common fashion.

How did we get so jaded?
Never questioned, now we've faded.
The only thing to do from here,
Is WAKE UP! WAKE UP!
How did we get so jaded?
Never questioned, now we've faded.
The only thing to do from here,
Is WAKE UP! WAKE UP!

1, 2, 3, 4!

How did we get so jaded?
Never questioned, now we've faded.
The only thing to do from here,
Is WAKE UP! WAKE UP!
How did we get so jaded?
Never questioned, now we've faded.
The only thing to do from here,
Is WAKE UP! WAKE UP!
