

## Gojira "Mouth Of Kala"

There's a river of time  
Let us worship this god of destruction  
On nothing we can reply  
All is gone, belong to the past  
You should learn by the time  
Everything changing over and over  
We're all falling so fast  
Keep on burning  
Overwhelming power  
Keep on burning, change  
The old me didn't survive  
Inexorable transfiguration  
There is something at war  
The red tainted flash on the wall  
I'm nowhere to be found  
Nothing matters, truth out of sight  
In the air I dissolve  
I'm fading away  
Overwhelming power  
Keep on burning, change
