Lay down fall away  
Lie awake  
Just cannot move  
My arms and legs  
I'm paralyzed  
Don't recall how to free  
Myself from this  
In the heart of the dark  
My face contorted  
Don't know how to reach the light  
But I feel so bad  
Like a freak in a cage

Open the door  
Enter your heart  
You go so far

Golden unworldly silence  
Space flight at speed of light  
I cross the clouds and colors  
The black hole is calling me  
I slide on the horizon  
On the frontier not to cross  
Black dwarf  
Time's gone distorted  
In the heart of the dark  
A whirl of light

Enter in  
The realm of nothingness  
I feel the cold, my eyes are shut  
My fear is slowly dying  
Light years from here  
Are my thoughts and cages  
I can hear their moan  
But now a long deep breath  
Is calling

Overtaking time  
And now understanding space  
I feel united  
I do cross light

Feel the living  
Here in the center  
Stands the light of love  
That never can be touched  
From greater silence  
Shall return
