Here today, you'll be gone tomorrow  
Nobody really knows our lifeline  
Do our time, do out time, then we'll find  
Knowing what your past has left me  
Now I know where not to leave my trust

Stand by my side when I'm tall  
Thinking I'm blind to it all  
In the end you're never there when I fall  
Wehn I fall, When i fall  
You'll see it all

Here today how long will you stay  
Fair weather's the feather that floats away so easy  
In between mirrored reality

I can see you staring back at me

Stand by my side when I'm tall  
Thinking I'm blind to it all  
In the end you're never there when I fall  
Wehn I fall, When i fall  
You'll see it all

All I know is all I see, your past built this wall up  
insideme  
Everything you hoped I'd be, when I fall

Stand by my side when I'm tall  
Thinking I'm blind to it all  
In the end you're never there when I fall  
Wehn I fall, When i fall  
You'll see it all
