I see it black and white  
You see the in between  
We could ahve met together  
Alone seems much better  
Now we've gone seperate ways  
Didn't think you'd get one  
You got one

A steep price two pay to be this way  
But I know, I can't stay  
Lets move on, time moves on  
Here's your song, I'll be gone...tomorrow

2 months I won't be here  
So I thought it fair  
You say you're everything  
Now you're not anything  
Now we've gone seperate ways  
Didn't think you'd get one

You got one

A steep price two pay to be this way  
But I know, I can't stay  
Lets move on, time moves on  
Here's your song, I'll be gone...tomorrow

I'd rather be gone, then never see you  
I'd rather be alone, then waiting by the phone  
I thought that you should know, my lies not perfet

A steep price two pay to be this way  
But I know, I can't stay  
Lets move on, time moves on  
Here's your song, I'll be gone...tomorrow
