Hey you, I'm thinking of you
Wondering if you knew
How much I miss you
It's been a while, since I smiled
I wanna feel content for a while

There must be someone out there
Someone who would care
Someone with a star that could shine as bright as mine
Every day's a waste until I see our face
Someday

Hey you, I'm dreaming two
Planets aligned and you're all mine
It's been a while, since I smiled
I wanna feel content for a while

There must be someone out there

Someone who would care
Someone with a star that could shine as bright as mine
Every day's a waste until I see our face
Someday

How many times have you thought before
I'd do anything, anything
To see you outside of my door
I'd do anything, anything, someday

There must be someone out there
Someone who would care
Someone with a star that could shine as bright as mine
Every day's a waste until I see our face
Someday
