I'm in rare form tonight
Finding out nothing was real
It was all just a lie
I was taken for a fool too many times

Now it's said and done, nowhere left to run
Only left with what you said to me

I believed it all
You were the closest one to me
10 hours away still didn't stop me
Until I found out how you were

Now it's said and done, nowhere left to run

Only left with what you said to me

Now I count the days, to fill this empty space
I wonder if you're somewhere, with someone,
Doing the same thing, to break him
Guess I'll go, and think how,
It might be when i get over you

Now it's said and done, nowhere left to run
Only left with what you said to me
