You can't tell me
Anything at all
All your knowing
Will never stand, it'll fall

But i've tried you see
And it's time to move along
You can't poison me
If i'm never here at all

You don't know mary
She's never bothered you
You don't know mary
She's turned her back on you

So much that's said
Has fallen on deaf ears
You don't know how far
Inside the darkness spread

But the truth, it lied
As it wandered to your soul
She don't know about knowing
You need to let her go

You don't know mary
She's never bothered you
You don't know mary
She's turned her back on you

She won't be held down
She won't be around long
She's gone of to wander

You don't know mary
She's never bothered you
You don't know mary
She's turned her back on you
