Are you weary  
Do you no longer lay down  
Winter comes slowly  
To reach me through the down

save me  
i cannot save myself  
vaguely  
i don't remember how

Drop down my deary  
To reach me where I fall  
You never did know me  
Or care at, care at all

So i did a little dance  
As you walked away  
And you smiled at me  
And you smiled through me  
And you smiled, smiled  
And innocently  
Looked away

save me  
i cannot save myself  
vaguely  
i don't remember how

save me  
i cannot save myself  
vaguely  
i don't remember how

save me  
save me
