I need a sedative  
But i don't need what you give  
I don't see how you're so divine  
I don't see how you live  
Reform you sanity before you come to me  
Or i'll just say goodbye  
There is no guarantee of what you mean to me  
Stop, stop asking me why

Stand up with it to throw it down  
Stand up willing for the sake of sound  
Stand up with it to throw it down  
Stand up willing for the sake of sound

It's all so relative  
But it's all that i can give  
I don't seem to ever mind but it comes time after time  
So long to sanity, ever since you came to me  
But you always come to mind  
If we will ever be what we used to be  
You'll have to take what you find

Stand up with it to throw it down  
Stand up willing for the sake of sound  
Stand up with it to throw it down  
Stand up willing for the sake of sound

Better believe what you see  
I gave you ground on me  
Better that you try to prove  
You only get what you give

Stand up with it to throw it down  
Stand up willing for the sake of sound  
Stand up with it to throw it down  
Stand up willing for the sake of sound
