I smell it a little bit  
In the air tonight  
I feel it a little bit on the wind  
I turn my collar up  
For the evenin' ride  
Sad to see the summer's gone again

CHORUS:

But tonight it's more than autumn  
Chillin' in my blood  
And tonight it's more than summer  
Goin' down and gettin' gone  
For tonight I feel a loneliness  
Deeper than the mud  
And I feel the fall comin' on

There wasn't anything different  
In the way she said goodbye  
But it was somethin' missin' in her kiss  
Somethin' turned cold  
When she looked me in the eye  
And I shivered like an aspen in the whisper of the wind  
CHORUS

And I could fight like a warm wind blowin' on the breeze  
Driftin' like our summer memories  
But a cold rain starts a blizzard that goes blowin'  
through the leaves  
That keep fallin' like me

So I'll keep my eye  
To the western sky  
Try to find shelter from the rain  
And hope that she believes  
That I believe her when she lies  
Make my getaway before the pain rushes in

CHORUS

And I feel the fall comin' on  
And I feel the fall comin' on
